Engineering and Energy Design Assistance 2011 Rebate Application

Agralite Electric Cooperative, 320 E. Highway 12, Benson, MN 56215, Ph: (320) 843-4150

Energy Design Assistance Options:

Option 1. Custom Consulting Criteria

- For new construction or major renovation of commercial/industrial building projects.
- The project building size must be 50,000 sq. ft. or more.
- Analysis can begin during the schematic design or development stage of the project.
- The analysis results can be delivered prior to the completion of the construction documents.
- Rebates may be available for implementing or installing energy-efficient electrical equipment that performs beyond the Minnesota State energy code requirements. Check with your cooperative account representative.
- Residential housing projects qualify with a minimum of 150,000 sq. ft. of residential space (not

Option 2. Plan Review Criteria

- For new construction or renovation of commercial/retail building projects.
- The project building size must be less than 50,000 sq. ft.
- Analysis can begin when preliminary building designs are completed, prior to the development of construction documents.
- Rebates are available for implementing or installing energy efficient electrical equipment which perform beyond the Minnesota State energy code requirements through either the prescriptive or custom rebate programs.

Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

Other Important Program Rules

1. Installation must be complete before funds will be issued for the rebate.
2. Members and vendors must submit itemized equipment invoices, along with rebate application and worksheet, to the cooperative. To ensure that the equipment installed meets the cooperative's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, as well as information regarding the manufacturer and model numbers for all equipment included in the rebate.
3. The cooperative reserves the right to conduct random inspections of installations.
4. The member is responsible for checking with the cooperative to determine whether funding is available.
5. The maximum rebate amount shall be the lesser of 50 percent of the project cost or \$20,000.
6. Rebate must comply with all program specific rules and qualifications above.
7. Qualifying members must apply for 2011 rebates no later than November 30, 2011.
