The undersigned does hereby certify that 1) The undersigned, and not Agralite Electric Co-op, is solely responsible for the accuracy of the information contained in this application, 2) all rules of the program have been followed, and 3) the work is complete. Further, the undersigned acknowledges that nothing contained in the application shall impose any liability on Agralite Electric Co-op for the work performed and information presented by the customer's engineer, contractor, or vendor.

**Warranty Information**

Rebate qualifications do not imply any representation or warranty of such equipment, design, or installation by Agralite Electric Co-op. Agralite Electric Co-op shall not be responsible or liable for any personal injury or property damage caused by this equipment. Agralite Electric Co-op does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall Agralite Electric Co-op be liable for any incidental or consequential damages.

**Other Important Program Rules**

1. Installation must be complete before funds will be issued for the rebate.
2. Customers and vendors must submit itemized equipment invoices along with rebate applications, and worksheet to Agralite Electric Co-op. To ensure that the equipment installed meets Agralite Electric Co-op's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, and information regarding the manufacturer and model numbers for all equipment included in the rebate.
3. Agralite Electric Co-op reserves the right to conduct random inspections of installations.
4. The customer is responsible for checking with Agralite Electric Co-op to determine whether funding is available and to
5. Rebate must comply with all program specific rules and qualifications (see complete list of rebate specific rules).
6. Qualifying customers must apply for year 2010 rebates no later than November 30, 2010.

### **Energy Design Assistance Options:**

#### **Option 1. Custom Consulting criteria**

- For new construction or major renovation commercial/industrial building projects.
- The project building size must be 50,000 sq. ft or more.
- Analysis can begin during the schematic design or development stage of the project.
- The analysis results can be delivered prior to the completion of the construction documents.
- Rebates are available for implementing or installing energy efficient electrical equipment which perform beyond the Minnesota State energy code requirements through either the prescriptive or custom rebate programs.
- Entirely residential housing projects qualify starting at 150,000 sq. ft. (not including garage).

#### **Option 2. Plan Review Criteria**

- For new construction or renovation commercial/retail building projects.
- The project building size must be less than 50,000 sq. ft.
- Analysis can begin when preliminary building designs are completed, prior to the development of construction documents.
- Rebates are available for implementing or installing energy efficient electrical equipment which perform beyond the Minnesota State energy code requirements through either the prescriptive or custom rebate programs.

### **Program Funding**

- The funding for Custom Consulting and Plan Review are shared 50%/50% between Agralite Electric Co-op and the Member Customer.
- The customer is responsible for checking with Agralite Electric Co-op to determine whether funding is available and to verify program parameters.
- The maximum rebate amount shall be the lesser of 50% of the project cost or \$100,000.
- Customers must apply for Year 2010 rebates no later than November 30, 2010.

### **Specific Rules and Qualifications**

1. The rebate incentive for the energy efficiency measures selected and implemented will be made according to the results of the verification after construction project is complete. Rebates must comply with all program specific rules and qualifications.
2. Payment of the rebate incentive will only be made after:
  - The construction of the customers facility is complete
  - The customer has received an occupancy permit
  - Agralite Electric Co-op has verified that all energy efficiency measures and equipment have been installed.
  - Rebates and incentives may be denied if the specifications do not adequately provide for the installation of the energy efficiency measures consistent with good engineering and energy efficiency design practices.
3. Review of Specifications
  - A copy of the construction documents and specifications for the construction of the facility must be provided
  - Custom consulting projects must meet the specifications included in the list of the conservation measures detailing the energy cost savings and dollars and energy units.
4. Verification of Installation
  - Rebates and incentives may be denied if the specifications do not adequately provide for the installation of the energy efficiency measures consistent with good engineering and energy efficiency design practices.
