Plan Review criteria

- For new construction or renovation commercial/retail building projects.
- The project building size is less than 50,000 sq. ft.
- Analysis can begin when preliminary building designs are completed, prior to the development of construction documents.
- Rebates are available for implementing or installing energy efficient electrical equipment which perform beyond the Minnesota State energy code requirements through either the prescriptive or custom rebate programs.

Program Funding

- The cost shall be shared; 50% Agralite Electric Co-op and 50% Member Customer.
- The member customer is responsible for checking with Agralite Electric Co-op to determine whether funding is available and to verify program parameters.
- The maximum rebate amount shall be the lesser of 50% of the project cost or \$20,000.
- Customers must apply for Year 2010 rebates no later than November 30, 2010.

Specific Rules and Qualifications

1. The rebate incentive for the energy efficiency measures selected and implemented will be made according to the results of the verification after construction project is complete. Rebates must comply with all program specific rules and qualifications.
2. Payment of the rebate incentive will only be made after:
 - The construction of the customers facility is complete
 - The customer has received an occupancy permit
 - Agralite Electric Co-op has verified that all energy efficiency measures and equipment has been installed.
 - Rebates and incentives may be denied if the specifications do not adequately provide for the installation of the energy efficiency measures consistent with good engineering and energy efficiency design practices.
3. Review of Specifications
 - A copy of the construction documents and specifications for the construction of the facility must be provided
 - Custom Consulting project specifications must include a list of the conservation measures detailing the energy cost savings and dollars and energy units.
4. Verification of Installation
 - Rebates and incentives may be denied if the specifications do not adequately provide for the installation of the energy efficiency measures consistent with good engineering and energy efficiency design practices.

Agralite Electric Co-op retains the right to make adjustments to correct incentive calculations if necessary. Energy savings calculations are estimates and may vary from actual results. **IMPORTANT:** A copy of the completed application form, invoices and other project documentation is required prior to payment being issued. Rebate must comply with all the program specific rules, guidelines and qualifications.
